BLAIRMORE TOWN CLERK'S DISMISSAL REPORTED, EDMONTON

EDMONTON, July 11.—Following disagreements among officials, C. M. Larbalestier, secretary-treasurer of the Town of Blairmore, has been dismissed, according to advices reaching the Municipal Affairs Department.

A kedd regarding the report, Robert English, deputy minister of municipal affairs, stated that he was awaiting an official report on the action of the town council.

The sitting council was elected in February last, and although the new dismissed official had been in office only a few months, his work had been reported as satisfactory.

Enquiry in other directions indicated that the dismissal was an aftermath of dissension on the council last year, and that charges had been made at that time of communistic activities directed toward members of the council.

B.E.S.L. PICNIC

The first annual picnic of the B. E. S. L. No. 7, Blairmore, took place on Sunday afternoon at Barns Creek, near the golf course. The picnic was a signal success from start to finish, and was attended by a large crowd.

From the drop of the hat at 2 p.m., when Jack McDonald took charge of the races, until the gigantic ring war formed at 8 p.m., which gave three cheers for Comrades J. A. McDonald and Sam Crawford, and the singing of "For He's a Jolly Good Fellow," led by Comrade Boyle, there was not a dull moment, the only quietness being when everybody sat squat for supper.

Races for the kiddies and married women; fat men's race; tug of war for the men and women, kicking the football, etc., found everybody too full to break any records.

The finish up was the softball game between the Cheaters and Doublecrossers, umpired by Rogus Jimmy M.ine. It was a real treat, but was marred a little by the body lurching of the Doubles' pitcher, Jimmy Turner, who also tried in clear daylight to square the ump. (We understand that such actions are to be the subject of enquiry by the board of control). The game looked like going on all night, until Tom McKay busted the bat with one of his Babe Ruth swipes, when the Cheaters were leading 17 to 8. Ideal weather, ideal site, and a good-natured crowd, intent on enjoying themselves—what more does a person want for a picnic?

TEACHERS' SALARIES

June issue of "The Alberta School Trustee" contains a table showing salaries of high and public schools throughout the province. Some of the larger places are given here, to show how Coleman compared:

	Prin.	Asst.	Pub.
Red Deer	\$2500	\$1700	\$1300
Wetaskiwin	2300	1700	1215
Camrose	2250	1600	1100
		to 2075	to 1500
Coleman	2700	1800	1100
		to 1900	to 1550

Since these figures were published in "The Trustee," changes have been made by downward revisions. Coleman board reduced salaries 10 per cent, Blairmore reduced 5 per cent and other schools in varying amounts up to 20 per cent.

Fernie school board notified its teachers at the closing of the term, that it could not guarantee or state what the salaries would be, owing to the financial condition of the district. They could only guarantee the amount of the grant by the provincial government.—Coleman Journal.

Both Kenneth and William McLean, father and son, will hang at Fort Saskatchewan jail on October 6th for the murder of Walter J. Parsille, Mannville farmer.

A New Form of Picture Entertainment

At Bellevue July 20th to 22nd

On July 20, 21 and 22, I am going to show a picture whose cast you never heard of in all your life. You have nothing to go on but what I tell you now:

I ask you to see "Be Mine Tonight," because I want to renew your interest in the movies. I want you to see something refreshing. I want you to see it without asking me "Who is it? Who wrote it? What is it all about?"

I want you to have some delicious entertainment. I want to see you laugh. I want to see you get a little thrill. I want to answer your demand for romance. Mixed in with this, I want to have you hear a voice of purgold.

I want each and every one of you to feel like a discoverer. I want to prove to you that great entertainment does not depend entirely on the stars you know and love so well.

How many times do you leave any theatre and feel like telling your friends, "You MUST NOT MISS THIS PICTURE?" You will feel like saying that after you see "Be Mine Tonight."

Be among the first to see a picture which is destined to be an international sensation. Have the fun of telling your very best friends about it.—W. J. COLE, manager Bellevue, Hillcrest and Michel theatres.

MARY PICKFORD in "Secrets," is the entertainment at Cole's theatre for the balance of the week. In this important picture, a Frank Borzage production with Leslie Howard, Mary Pickford summarizes all that she has meant to her millions of admirers. See her as a favored daughter of wealth—defying her parents' and facing the perils of the West for the man she loves. Share her secrets of joy and sorrow—secrets you will carry in your memory forever. All the great love stories of the world rolled into one.

Mr. W. Evans, who left by motor for Calgary last Sunday, met with an accident near Strathmore. Accompanying him were Mrs. Roy Simpson and her two children and Miss Tester. The car was badly damaged, but fortunately none of the occupants were seriously injured.—Rediff Review.

With the fall of the dollar, the United States has lost the distinction of having the largest bank in the world. A cable report of Barclays Bank, Limited, of London, shows deposits converted into dollars at the current rate of exchange of \$1,821,057,750, and total resources of \$1,971,951,086. The Chase National Bank of New York, hitherto regarded as the world's largest bank, reported deposits of \$1,408,237,158 and resources of \$1,727,182,164 on June 30. Since Barclays has been rated as the third largest of London's "big five," it appears that England now has three banks exceeding the Chase National's figures.

A fire, which looked very much like the work of an incendiary, was discovered in the bare nick of time on Saturday evening on the premises of the old Blairmore hotel building. A small heap of excelsior, paper, etc., had apparently been set fire to, and when quenched by Mr. Steeves, of the drug store, by the use of an extinguisher and several gallons of liquid, the walls around had become considerably charred. Several calls were made to the Blairmore fire department, but no response was had. Had there been a high wind at the time, there is no doubt but that a very serious fire would have resulted. The public are naturally asking: Is there any prospect that "inefficiency" will be blamed for the firemen's failure to respond to the calls this time?

BLAIRMORE PUBLIC LIBRARY

NOTICE.—The library will be closed from July 15th until August 31st. All members having books due on dates between now and July 15th please have them returned on or before that date.

The Library hours are Tuesday, Thursdays and Saturdays from 7 to 9 p.m. The fees are \$1.00 for residents and \$2.00 for non-residents per year.

WE SAY SO, TOO, FOR BENEFIT OF LOCAL MERCHANTS

The Coleman Journal of last week very aptly remarks: "The printed word, properly displayed, with attractive typographical appearance, creates a good impression on the public."

Quite a number from this district visited the Girl Guides' camp at McBain's Lake, B.C., on Sunday last, where they found about sixty girls of the 'teen age thoroughly enjoying themselves under the charge of Lieutenants Annie Yuill, of Coleman; Mrs. Rhynas, of Blairmore; Florence LeRoy, of Michel, Miss Jessie L. P. Church, former provincial secretary for Alberta, and Mrs. R. P. Borden, of Coleman, district commissioner. They are camping for ten days and will return to their homes in Natal, Michel, Coleman and Blairmore this week end.

Max Schmeling has taken another knockout. He married a musical comedy actress at Berlin, Germany.

WORLD HAPPENINGS
BRIEFLY TOLD

The Canada-South Africa trade agreement, negotiated during the imperial economic conference in Ottawa, last summer, has become effective.

The world disarmament conference has been adjourned to Oct. 10 despite a protest by Rudolph Nadolay, Chancellor Hitler's representative, that the long recess amounted to a first-class funeral for disarmament.

Approximately 2,500 single unemployed men are in Vancouver receiving no assistance from either city or province because of their refusal to go to relief camps or because they left these establishments.

E. L. Bushnell, director of radio station CKNG, Toronto, has been engaged by the Canadian radio broadcasting commission to make a tour of the western provinces to organize programmes from this area.

Detention for 28 days was the sentence meted out to Guardsman Harris, sentry at Windsor Castle, following a court martial. Harris was found asleep at his post while the royal family were in residence some time ago.

A plea for an even greater measure of co-operation between all nations in the fight against tuberculosis was made by Professor S. Lyle Cummins, of England, noted authority on the disease, at the annual dinner of the National Tuberculosis Association held in Toronto.

Dr. John M. Chapman, associate professor of banking at Columbia University, in an address before the round table on money, banking and financial situation, at the institute of public affairs, said that the United States "bank failure movement is not ended."

Seven speedy destroyers used by the United States' coastguard for years to chase rum runners and other smugglers operating off the Atlantic coast have been returned to the navy because the government's economy programme necessitated a reduction in expenditures.

Has His Own Method

British General Taught Himself Eight Or Nine Languages

Lieutenant-General Sir Edmund Ironside has exchanged what was practically a sinecure at the Tower of London, England, for an active part by his new appointment as Quartermaster-General of the Forces in India. As the youngest general officer in the British Army for many years—still less than fifty-four years old—he will now have an opportunity to use his keenness to the full. He taught himself the eight or nine tongues he knows by a method of his own, memorizing every day a score of nouns and adjectives. Verbs come in their own good time, and if he is ever at a loss for one, he bridges the gap by an elegant gesture and carries on calmly with the nouns.

Learning To Work

Many Opportunities On Farm To Learn Use Of Head and Hands

During the long summer holidays boys on the farm can find plenty to do learning to work, and it is very important that opportunities should be found for them. Boys need to be able to use their hands expertly as well as their minds. If not, they will find the rough and steep at the outset of life. Girls have the chance to learn to work in their homes, under the direction of their mothers, the best of all teachers. Of course a boy should have some time to play, but idleness is a great stumbling block in the way of life, and is a surer road to death than work.

Selling Wheat Abroad

Almost Sixty Countries Purchased From Canada Last Year

Canadian wheat last year was sold to almost 60 countries, made up of 20 within the empire and the balance beyond empire boundaries. Of the total of 140,000,000 bushels to export no less than 135,000,000 bushels went to the United Kingdom.

France and Belgium purchased each about 14,000,000 bushels. Italy and the Netherlands together, accounted for 21,000,000 bushels; China and Japan, 13,500,000 bushels; Germany, 6,000,000 bushels; and Greece, 5,000,000; Norway, Sweden and Peru purchased about 1,000,000 bushels each.

Industrial activities in Sao Paulo, Brazil, are increasing.

More than 1,250,000 radio sets were sold in England last year.

W. M. T. 2002

Canadian Authors Tour Britain

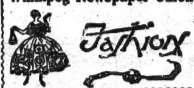

Party of Fifty Will Visit Literary Centres Of The British Isles

Following the annual convention of the Canadian Authors' Association which this year was held in Quebec City, a party of about 50 Canadian authors and their friends sailed (July 1st) on the "Empress of Britain" for a tour of the literary centres in the British Isles. They will be met by some of the most distinguished authors of Great Britain and will experience the advantages of personal contacts with the scenes depicted in English literature including the country of Hardy's "Tess" the spot where Keats wrote "Ode to the Nightingale," Westminster Abbey, Dr. Johnson's house, the inn made famous by Sam Weller, Stratford-on-Avon, Kenilworth Castle, Wordsworth's home, the Robert Burns country, and other centres of literary interest.

Among those who, it is expected, will extend courtesies and greetings to the visiting Canadians will be Sir James Barrie, Rudyard Kipling, John Buchan, John Massfield, Sir Henry Newbolt, J. B. Priestley, John Drinkwater, and George Bernard Shaw. There will also be recognition by leading public bodies and parliamentarians.

The Canadian Authors' Association was organized in 1921 with a view to promoting the interests and craftsmanship of Canadian authors. It has branches from coast to coast and a membership of about 800. The association has helped to disclose the very substantial contribution which Canadian writers are making to current literature—a contribution which had due to some extent escaped observation due to the fact that a large part of Canada's literary production finds its way to the public through the channels afforded by publishing houses in the British Isles and the United States, with the result that numbers of well-known Canadian writers were commonly regarded as being Englishmen or Americans. During the 12 years since the association was organized great advances have been made in the Canadian publishing industry, particularly in the field of magazines and literary periodicals.

YOUR NEW BLOUSE WITH THOSE SMART FUL SLEEVES AND BECOMING TAILORED NECK

Here's a charming new model which has lots of gay style about it. Yet you can see, it is exceedingly simple to fashion, yet every detail conforms to the dictates of the mode. White crinkly crepe silk made the original.

It is also lovely in grey, maize, light blue or eggshell.

Style No. 701 is designed in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust.

Size 16 requires 2 1/4 yards of 39-inch material.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap card carefully.

CHINESE GENERAL AIDS POULTRY IMPROVEMENT

General H. H. Den, commander of the 28th Chinese Army who has given his cheque (shown above) for \$500 to construct a modern poultry barn for Canadian breeding stock recently donated to missionaries in his district by Vancouver men and the University of British Columbia. Rev. Frank Dickson, M.Sc., late of Yarmouth, N.S., is in charge of agricultural projects, including the improved poultry plan.

Great Masonic Gathering

Duke Of Connaught Opens New Headquarters In London

At one of the greatest Masonic gatherings which has been held in London, England, for many years, the Duke of Connaught, Grand Master, opened the new Masonic headquarters adjoining the old headquarters in Great Queen Street. The lofty tower of the new building rises above the not inconsiderable buildings of the neighboring Kingway. There is a great inner temple surrounded by 15 lodge rooms, a large museum and library and extensive administrative offices. The cost which runs to well over £1,000,000, was raised on the suggestion of the Duke of Connaught just after the close of the war. The building will be a memorial both to the close of the war and to many Freemasons who fell in action.

Only One Reigning Queen

Wilhelmina Of Holland Has Celebrated Silver Jubilee

Wilhelmina of Holland has the distinction of being the only reigning woman monarch in the world. Her Majesty, who is 52 years of age, has already celebrated her silver jubilee, being crowned when 18 years old. She spends most of her time at her country palace near Apeldoorn, where she paints water colors and goes long rides daily. Her court is very simple. Wilhelmina speaks several languages and is also a bridge and golf enthusiast. Visiting statesmen present at the openings of her parliament all remark on the clarity of her enunciation.

Something Worth While

Investment In Youth Is Most Exciting Speculation Known

In times like these investment in boys and girls. Men talk about buying stock at the bottom. When a boy, in a boy or girl you are always buying at the bottom. You are sure that the youngster is going up, and there is no telling how far. I invite every man and woman in America to take a flyer in Childhood Preference. I predict a great future for this security. It has investment merit combined with the most exciting speculative possibilities. You are sure to get a man or a woman; you may get a great man or a great woman.

CYCLIST: "I don't care who you are, I'm going to speak my mind."

LADY DRIVER: "Please don't. I'm sure you haven't a nice one."

The Humorist, London.

Recipes For This Week

(By Betty Barclay)

ORANGE RICE

- 1/2 cup uncooked rice.
- 1 pint boiling water.
- 1/2 teaspoon salt.
- 1/2 pint whipping cream.
- 1 cup orange juice.
- 1/2 cup sugar.
- 1 tablespoon grated orange rind.

Cook rice in boiling salted water until tender. Do not overcook. Pour into a strainer and wash several times in cold water. Spread out on a cloth to drain. Sprinkle 1 teaspoon of the grated rind over the rice. When cold fold the rice into the whipped cream and serve with sauce made by combining the orange juice, sugar and rind, which has been stirred until sugar is dissolved.

HAM MOUSSE

- 2 cups boiled ham, put through meat grinder.
- 1 teaspoon mixed mustard.
- 1/2 teaspoon sugar.
- 1/2 teaspoon paprika.
- 1 tablespoon gelatin.
- 2 tablespoons cold water.
- 1/2 cup hot water.
- 1/2 cup heavy cream, whipped.

Add seasonings to finely chopped ham. Stir in gelatin which has been soaked in cold water and dissolved in hot. Combine mixture lightly with whipped cream. Turn into a mold that has been dipped in cold water. Leave on ice until well set. Serve on lettuce.

Suffer From Trachoma

Serious Eye Disease Breaks Out Among B.C. Indians

Forty-three cases of trachoma, a disease affecting the eyes, are reported in British Columbia, mostly among Indians, according to vital statistics released at Victoria, B.C. Dr. J. J. Wall, eye specialist of the Dominion Department, has been making a survey of health conditions among Indians for the past year and has discovered trachoma is prevalent among nearly all tribes he has inspected.

Steps are being taken to deal with the situation which, while not considered alarming, is serious enough to warrant rigid inspection of all reserves.

SUNDAY SCHOOL LESSON

JULY 16

DEBORAH

Golden Text: "God is our refuge and strength: A very present help in trouble."—Psalm 46:1.

Lesson: Judges, Chapters 4, 5.

Devotional Reading: Psalm 46:1-5, 8-11.

Explanations and Comments

Israel Oppressed By Sisera, Captain Of Jabin, King Of Canaan, Chap. 4: 1-3.—"It is easy to fail to discover a great crisis between the verses of an old narrative, but this was a great crisis. Here was a weak and struggling people, whose future was of immense consequence to the whole history of religion, charged with a mighty spiritual destiny, and in danger of just ceasing to be anything at all before they had even begun to be what they were meant to be. Their spirits were broken; those chariots drove across their very soul. If ever their leaders came together, they said: 'It's no use, Sisera is too strong for us; we have only foot soldiers, poorly armed.' If we should rise against Sisera, he would only ride us down the more fiercely." And then, when the news came of no use at all, a woman turned the tide of history.

"Something very much like that happened in France five hundred years ago. England held France in the hollow of her hand; the spirit of the French was broken; the State was divided; the king was a poor weakling with no thought but of his own pleasure. Then a peasant girl, Joan of Arc, came and her soul kindled her. She touched the smouldering spirit of her race with her own kindling fire. She saw her King crowned in grey old Rheims Cathedral; and, though she herself died a martyr to the stupidity and treachery of her time, all the world remembers Joan of Arc. There is no limit to what a kindled soul can do when the time is ripe."—Cassius M. Allen.

Deborah's Challenge To Barak, Chap. 4: 4-7.—Deborah was a prophetess and the judge of Israel at this time. She was accustomed to sit under a palm tree (therefore known as the palm of Deborah) and declared what was the judgment of God in national affairs, and she also settled disputes among men. On a coin of the Roman Empire, which represented the capture of Jerusalem, there is a picture of a woman seated under a palm tree, captive and weeping. "It is the contrast of that figure which will best place before us the character and calling of Deborah," Dean Stanley writes. "It is the same Jewish palm under whose shadow she sits, but not with downcast eyes and folded hands and extinguished hopes, but with all the fire of faith and energy for the battle of confidence of the victory."

With faith in God's directing hand, she saw the need of a leader for her task. Deborah summoned Barak and ordered him to raise a force of ten thousand men from the tribes of Naphtali and Zebulun and attack Sisera with his chariots and his multitude. Oliver, Kitchin, says that those two tribes were called because they were the most interested in delivering Israel from the power of the Assyrian king, who was speaking in the name of Jehovah.

Fruit Popular In Canada

Consumption Of Apples, Oranges and Bananas Is Heavy

Notwithstanding the fact that the people of Canada eat more eggs and butter than the people of any other country and register high as meat eaters, they also enjoy fruit. The statisticians of the Canadian government have just released the figures on fruit consumption in Canada for the fiscal year ended March 31, 1933, which show that the domestic consumption of apples was 2,272,100 barrels, of oranges 2,683,471 boxes, and 3,325,900 stems of bananas. The average per capita consumption was about one-fifth of a barrel of apples, more than one-quarter of a box of oranges, and less than one-third of a stem of bananas.

The total domestic consumption of the commercial apple crop grown in Canada has been fairly constant during the past ten years, varying in somewhat the same manner as commercial production, whereas imports show a gradual decrease which has been more rapid during the last two years. Bananas show a steady increase in imports, but with a drop during the 1932-33 season to about the 1927-28 level, although the population has increased at a greater rate and during the last three years consumption per capita has declined. Imports of oranges vary from year to year and show no decided trend to decrease or increase, which trend is also lacking in the consumption per capita.

U.S. Population Increases

The population of the United States has increased 2,917,954 since April 1, 1930, to a new high of 125,693,000. So declared the census bureau in presenting some complicated additions, subtractions and divisions arrived at by estimating the increase since the 1920 census on the basis of the available data regarding births, deaths, immigration and emigration.

To Measure
Wind Resistance

Seven Hundred Miles-An-Hour Tunnel Built At English Laboratory

Important improvements in the range and accuracy of shell and rifle fire will result, it is hoped, from a new 700 miles-an-hour wind tunnel, which is to be constructed at the National Physical Laboratory, Teddington, England.

The tunnel will provide the fastest stream of air which has yet been produced—with a velocity nearly equal to that at which sound travels through air. This will render it possible for the first time for wind resistance to be measured at speeds closely approximating to the highest muzzle velocities obtainable.

As a result research workers will be able to obtain exact data on the relative merits of projectiles constructed with various modifications to existing standard shapes. Instead of elaborate and costly gunfire trials with projectiles the whole work will be performed in the laboratory. The air will rush past the shell instead of the shell rushing through the air.

The chief directions in which improvement may be expected are in increase of range in the case of shell fire, and greater resistance to "drift" due to a sideways wind, in the case of rifle-fire. In the latter case it will be possible to reproduce the full effect of lateral wind of any desired strength by placing the bullet to be tested at a small angle to the 700-miles-an-hour gale.

The importance of such practical tests lies in the fact that hitherto it has proved impossible to make precise calculations of air resistance on these shells, since with both ships and aircraft it has been found that important improvements can be obtained by apparently insignificant changes in design.

In the method which will be adopted, the projectile will be suspended in the wind tunnel by an apparatus which will automatically record the various forces exerted on the projectile. This record can be transmitted by electrical means to an observer outside, thus as full a knowledge of everything that is happening to the projectile as if he were in the tunnel.

The new tunnel is to be constructed, in order to make use of the enormous air pressure developed in the laboratory's compressed air tunnel for aircraft testing, which is ready to begin work.

When testing in this tunnel is completed, the air it contains, which exerts a pressure of 5,000 tons on the projectile at other ends, will be released through the new projectile tunnel. It is estimated that the blast of air will last for about twenty minutes at the full speed. In addition to projectile tests the tunnel will be used to measure the forces on the tops of aeroplane propellers, from which other improvements are expected.

The creation of the compressed air tunnel, which alone makes the projectile tunnel a possibility, is a minor triumph for the British steel industry. Its construction was so large that it was necessary to build the containing building round it. The whole has been tested up to the record pressure of 500 pounds a square inch—more than forty-five times the normal pressure of the atmosphere.

Taking Wonderful Trip

Party Of Ten Hawaiian Boys On Way To Yukon

When R.H.S. Monowal docked in Vancouver, it was just the end of another journey for most of the passengers, but for 10 boys from Hawaiian Islands, it was arrival at the stepping-off place for magnificent adventure.

They are members of a party from Honolulu school, under direction of Mr. Bayne Beauchamp, and their destination is Yukon and Alaska, where they will do nothing at all except: Travel 1,600 miles on the Yukon River in small boats; prospect for gold; boatmen; take samples of plankton (minute sea food); like moving pictures. They have arranged for some boats at Whitehorse, and will build others.

The boys, ranging in age from 14 to 17, were picked for their physique and mental buoyancy. They will visit Dawson, Fort Yukon and Tanana on their trip down the Yukon.

Trailed Their Chief

In the first use of the new radio equipment for policemen, the chief constable of Nottingham, England, broadcast the description of a man wanted, the cruiser cars jumped on the trail, and when they stopped the "fugitive" driver they found he was the chief constable himself.

You need to be broad-minded to live in a narrow-minded community.

"EDUCATION" IN THE U.S.

We are reduced to a proper state of humility by the answers of 1267 high school students of the United States to a questionnaire concerning Canada sent them by Dr. Arthur A. Hauck, dean of Lafayette College, who has published a book about it, and about a similar survey taken of 1168 secondary students in Canada to determine their knowledge of the United States.

Here are sample observations of the American students, taken—says the Montreal Gazette—from hundreds quoted in the book:

"I am terribly ignorant in regard to Canada, and all I think of is fish, snow, cold and ice."

"This is the first time I have really thought about the Dominion of Canada. We are so close to it that there ought to be something in school about it."

"I know practically nothing about Canada except that most of the people live in old villages and are not very rich."

"There isn't anything in Canada to interest Americans but their liquor."

"Canada is a country that has not reached the type of civilization that it should have."

"Indians make up a large part of the population."

"Canada would be all right for fishing, but I don't fish."

"Most Canadians trap for a living."

"My impression of Canada is a lot of land going to waste. There are many forests, rivers, mountains, etc., interspersed here and there with an inhabitant."

Asked to vote on the "leading living Canadians," 77 of the students named Mr. Mackenzie King, 46 named Mr. R. B. Bennett, 24 Percy Williams, the sprinter; 16 went for Eddie Shore, hockey player, and 12 plumped for Mr. James Ramsay MacDonald. No others had as many as ten votes. On the question of great names in Canadian history, 126 voted for Champlain, 121 for Wolfe, 111 for Montcalm. Asked about outstanding characteristics of Canadians, the American students mentioned hospitality, respect for law, industry, and very frequent references to the Royal Canadian Mounted Police indicated the power of films and fiction in formulating ideas of distant places.

Canadian students knew a great deal more about the United States and great Americans, than did the Americans of this country. Thus the Canadians who answered the questionnaire voted for Lincoln as the greatest American in history, Ford as the greatest living American, and in general expressed views reasonably orthodox with occasional vote for Rudy Vallee, Babe Ruth and Clara Bow.

Dean Hauck remarks mildly that all these answers "indicate the necessity of a fund of essential information as the basis for teaching international friendship." One doubts, however, if the average high school student would profit greatly from the existence of such a fountain of knowledge. There are so many sources of information on all sorts of subjects available to everybody today, that there is no excuse for the incredible ignorance which places James Ramsay MacDonald among the great Canadians and knows nothing of Canada except its liquor and scarlet-clad policemen.

George Henderson, president of the Bradman-Henderson Limited, paint manufacturers, died at Montreal on Thursday last.

CHRIS. PATTISON, M.L.A. IN AN ADDRESS AT SAUNDERS

Chris. Pattison, M.L.A., for the Rocky Mountain constituency, spoke to a well attended meeting at Saunders on June 29th. He dealt chiefly with matters affecting the Workmen's Compensation Act and relief question. In dealing with the Act, he stated that with one or two amendments and a little more sympathy used by the administrators of the act, we should have one of the best in the world. He pointed out that in the case of a workman becoming permanently partially injured, a sum of money was invested in a reliable source whereby even though the Workmen's Compensation Act was struck off the statutes, this person was sure of his pension for life. Also, when a married man lost his life, the money was set aside above to protect the wife and children. The speaker said he was in favor of a system of state insurance, so that people in outlying districts where, in the past, lives have been lost through lack of medical attention, could have free doctor and medicine. There are hundreds of doctors, some on relief, who have won their diplomas with a high percentage, who would be glad of the opportunity of availing themselves of this work. He also stated he was successful in placing and getting through an amendment into the act, a clause whereby any workman who could prove that he was suffering from a new hernia, should receive compensation. He dealt with relief questions, laying stress on these road camps where single fellows were receiving \$5 per month, plus their board. What do these camps instill? What incentive, ambition, etc., can these young fellows have for the future? All their thoughts are in a state of chaos. Why should it be necessary to get roads built at this price? Why should there be so many unemployed in a country rich in all commodities? Why are people going hungry, unclothed, shelterless? Why are there unemployed? It is not necessary. Put them to work and produce those things which are short. Today we are scared to look ahead. There cannot be any improvement until we get together in a sane and intelligent manner. To bring about this reformation there must be a co-ordination of all classes. Instead of machinery displacing labor, it should assist the workers to work shorter hours and have more time to think. The speaker said if he could only get the men to "think" he would be satisfied. (Some Job, Chris.) He pointed out the thousands of young people leaving the universities, high and normal schools each year, also young people with a technical training, flooding the markets of the unemployed. What hope have they for the future? What could they look forward to? In dealing with the relief of the families, he was asked why a family of eight should receive less than a family of six? This is one question he could not answer. He pointed out that it depended on the word of the resident policeman. One family was given relief for the month of May, and was told that if he worked two or three days in June he would have to pay it back. That set Chris. back again, but you can depend upon it he will want to know what it means. He also mentioned this proposition of zoning coal, but as this question has been dealt with before in these columns, we will not deal with it here. Mr. A. Williams stated that the coal company had reduced the price of domestic coal to the lowest price. The speaker acknowledged that to be correct, and stated the coal companies should get together and form some kind of organization to cope with the coal sales, so they would not have to under-sell each other. He pointed out if this thing continued the operators would be calling for a reduction in wages—a thing this country must avoid. He pointed out that he had secured the promise that no more coal mines would be opened in Alberta. He also added, "you have a \$5 freight rate to the east; now try

BLAIRMORE UNITED CHURCH
Rev. Alex. E. Larke, Minister

"Serve the Church that the Church May Serve You."

Services Sunday next, the minister in charge:
10 a.m.—JUNIOR SCHOOL.
11 a.m.—PUBLIC WORSHIP and SENIOR SCHOOL.

ST. LUKE'S CHURCH NOTES

Rev. A. S. Partington, B.A., Rector

Services Sunday next:
7:30 p.m.—Evensong and sermon.

John Harmer returned to Calgary over the weekend end, after a week's visit with his parents here.

The pound sterling reached a new high record of \$5.02 on Monday at Montreal, and \$4.80 1/2 at New York.

Sergt. Tomlinson, R.C.M.P., who has been on duty at Regina, for the past three months, returned on Sunday.—Red Deer Advocate.

General Italo Balbo's Italian seaplane squadron arrived at Cartwright, Labrador, at 1:56 p.m., Atlantic standard time, yesterday, making the 1500-mile journey from Iceland in ten and a half hours.

The marriage of Miss Sophia Smalek, daughter of Mr. and Mrs. A. Smalek, of Coleman, to Alfred, son of Mr. and Mrs. J. Beck, took place in Vancouver on June 26th. Mr. and Mrs. Beck visited in Coleman for a few days following the ceremony.

The Calgary Albertan published an "R.I.P." for Jimmy Matthen, which Jimmy has the opportunity to add to his laugh-provoking treasures. (The whole world sympathizes with the Albertan in the hour of its bereavement, but hopes for better luck next time.

Beauty culture accounted for about one-quarter of the total amount, approximately \$20,000,000, spent in Canada during 1932 for toilet preparations, soap and washing compounds, according to the industrial department of the Canadian National Railways.

WHAT IS YOUR CAR WORTH?

A recent study of 40,000 used-car sales, conducted by Motor Magazine, produces figures that are of interest to every car owner, and every prospective buyer. Among the findings it is discovered that used cars are declining in market value at a slightly faster rate than the five-year average and also that the age of the average used car traded is approaching four years. It is noted that at the end of the first year the decrease in market value of a closed car in any price group is equal to approximately one-third the current new car price. During the second year, a further decline of about 17 per cent takes place; this making resale value of the two-year-old car approximately one-half the current new car price. The third year sees a further decline of 14 per cent and the three-year-old is worth one-third of the new car price. At the end of four years, the car is worth one-quarter of the new car price and reaches "scrap" condition between the sixth and seventh years.

get it to \$4. Why run empty trains? He also made the following statement: "If gas had been piped from Turner Valley to Saskatchewan, the mines up this branch would now be closed. We also took this matter up. After several questions had been asked, Mr. A. Williams moved a vote of thanks to Mr. Pattison for his talk. Mr. Pattison spoke at Nordberg on Friday.—Red Deer Advocate.

Local and General Items

Hon. George Hoadley recently underwent an operation in a Vancouver hospital.

There are sixty different kinds of mosquitoes in Canada—and we have been taxed by fifty-nine of 'em.

The Macleod Town Council made a grant of \$25 towards the Lethbridge Board of Trade for the publication of the Red Trail maps.

A new form of oath for dentists reads: "I do swear to pull the tooth, the whole tooth and nothing but the tooth!"

An exchange says: "Between a woman's 'yes' and her 'no' you couldn't even squeeze a needle through."

Cora Lillian McPherson lost in her action to upset the divorce from her former husband, Hon. O. L. McPherson, Alberta's public works minister.

An Aberdonian, upon leaving a Montreal hotel, saw a notice over the cashier's desk, as follows: "Have you left anything?" So he went back to his room and took soap and towels.

Another slam at the non-discriminatory council of Blairmore is their action against a qualified official, C. M. Larbaletiere. From the start, the present Blairmore council pledged themselves against discrimination. But now, an election promise has to be fulfilled, regardless of qualification or the best interests of the ratepayers.

Thornton and MacDonald, British engineers of Metropolitan Vickers, sentenced in a Soviet court, have been set free and one of the most amazing incidents in the history of modern diplomacy has been closed. Meanwhile the British embargo on Russian trade has been lifted. Some day we may learn the truth of the whole affair.—Ex.

Hugh Savage, editor of the Cowichan Leader at Duncan, B.C., who has been nominated as an independent candidate for the Cowichan-Newcastle constituency in the provincial election, tells his friends they must finance his campaign, and that if elected he will return to charity in his district his indemnity, except out of pocket expenses.

W. D. Spence, commissioner of the department of municipal affairs, is in town today, considering appeals against the business tax levy. Sessions opened at the town hall at 9 a.m., and will likely continue throughout the day. We understand that no decisions have been made and that the court has been adjourned to a date of which due notice will be given.

Learning that the post office had registered letters for lots of people on Monday, found that institution crammed to the doors the greater part of the day. These precious documents were found to contain notice to the effect that W. D. Spence, of the department of municipal affairs, and other members of the commission, was to be in Blairmore on July 13th, to act as a judge between the Blairmore council and their would-be victims, the business people, who had appealed against an additional, unnecessary and unwarranted tax burden in the shape of a business tax, etc.

It certainly was a very great pleasure to see the Mountain Mill church filled on Sunday afternoon. The congregational singing was fine. The thing of great interest for the afternoon was the message of marvelous courage and achievement brought by W. R. Watson, or Bill Watson, as the Rev. A. E. Larke called him when he was introducing him to the congregation. There is no need to enlarge on this message here. We surely should never allow ourselves to get discouraged after hearing and reading of such striving against desperate odds. We wish Mr. Watson great success in his undertakings. An enjoyable picnic followed the afternoon service.—Baxter Mines Note in Pincher Creek Echo.

WORLD'S GRAIN EXHIBITION AND CONFERENCE · JULY 24th AUG. 5

A WORLD EVENT Brought Right To Your Front Door

Never before has the privilege of playing host to the nations of the world been accorded to Western Canada—and now again will a gathering of such world-wide importance be staged for the convenience of Canadians of the prairies.

PARTICIPATED IN BY
Over Forty Nations, States & Provinces

Here, representatives from all parts of the world will gather to show what they grow and share what they know in the magnificent 3 1/2 acre, quarter-million dollar Grain Show Building. Exhibits and discussions that no one should miss.

NOT MERELY A GRAIN SHOW

Held, as it is, concurrently with the Provincial Exhibition, one will see here the latest live stock, agricultural, industrial and farm machinery exhibits ever displayed in Western Canada. Wonderful commercial, railway and government exhibits the last three months to set up and many of which were previously shown only at the famous Wembley and Argentine Exhibitions. And those visitors seeking holiday recreation will find pastured attractions and amusement features seldom seen outside the great cities of the world.

All Aboard for a Glorious Holiday

No Westerner should miss the "trip around the world" afforded by an inspection of the grain show building. Special rates on all railways. Plan NOW to attend this great world-event.

CHAIRMAN COMMUNITY COMMITTEE
HON. ROBERT WEIR
MINISTER OF AGRICULTURE
FOR CANADA

CHAIRMAN EXECUTIVE AND PRINCIPAL
HON. W. O. BUCKLE
MINISTER OF AGRICULTURE
FOR SASKATCHEWAN

Summervue L.O.L. held their annual service in the Orange hall at Pincher Creek on Sunday afternoon last. Rev. A. E. Larke, of Blairmore, took charge of the service, while Rev. Mr. Barlow, of Brocket, was the special speaker.

By adding artificial dyes to their food, chickens with beautifully colored plumage are being reared in England. Well, then, how can you account for red lips on a chicken that's fed on lettuce?

Rev. G. H. Villet, B.A., the popular and able pastor of McDougall United church, Edmonton, has been visiting his old home at Victoria, Prince Edward Island, during the month of June. He returns this week and will spend the remainder of July with his wife and family in the parsonage at Springvale. He will conduct the services each Sunday evening in the Springvale church and each Sunday afternoon in the Horn Hill church.—Red Deer Advocate.

The following is the most recent amendment to the criminal code, which was assented to on May 27th last: "Every person who has upon his person a pistol, revolver, or any firearm capable of being concealed on the person while committing any criminal offence of which he shall be convicted shall receive a sentence of two years in addition to the sentence imposed in respect of the offence of which he is convicted." It is to be noted that the amendment says "shall receive" and not "may."

COWLEY HAPPENINGS

Miss Nellie Kropinak, of Willow Valley, has been engaged to teach the Tennyson school for the coming term.

Mrs. C. J. Bundy and daughters Barbara and Clare are spending a few days visiting in Calgary.

Dr. and Mrs. McMath, of Gardena, California, are paying a visit to Mrs. McMath's brother here, Ralph Veitch. The doctor and wife made the trip by motor and will return the same way, after a week's outing in the foothills country.

William Tustian, accompanied by his brother George, of Prince Edward Island, is attending the Calgary Stampede.

Mr. and Mrs. Gerald Bradshaw motored to Calgary to attend the last two days of the Stampede.

Harry Pralton has returned from paying a visit to friends at Vulcan. Mrs. Rayburn, of Idaho, is paying an extended visit to her mother, Mrs. Ferris, and brother, Charles Ferris, and family, as well as her son, William Rayburn, of Willow Valley.

Miss Edith Murphy is spending the summer holidays with her sister, Mrs. Lionel Peel, at Blairmore.

Miss Elsie McKerral, youngest daughter of Mr. and Mrs. Charlie McKerral, and Thomas Dwyer, second son of Mr. and Mrs. George Dwyer, were quietly married in Blairmore on Saturday last. The young couple have the best wishes of their many friends.

A good shower of rain fell over the district early Monday morning.

Mrs. Portch and Miss Williams, of Macleod, were visitors the early part of the week with Mr. and Mrs. David Murphy at the North Fork.

Mr. and Mrs. Bert Connolly, of Lundbreck, are attending the Calgary Stampede this week. Mr. Connolly, while there, will be employed as chute judge in the backing horse contest.

On Monday afternoon, Mrs. Wilfred Fortner entertained at bridge, in aid of the Anglican church fund, when Mrs. George Penn, of Lund-

breck, was the lucky winner of the first prize, with her daughter, Miss Florence, being awarded the consolation prize. After cards, a very dainty luncheon was served by the hostess.

Hillie Swart and Master Gordon Swart are on a holiday trip in the North Fork country, camping and fishing.

The Tennessee school, which has been operating for perhaps twenty years, has been closed down for the present, owing to too few children of school age being in the district. It is interesting to note that grade XI was successfully taught at this school during the past year by Miss Esie Bennett.

A large crowd was on hand Sunday, when a softball game was played at Lundbreck, between Lundbreck and a team of Indians from the Peigan reserve, which ended 7-3 in favor of the Indians. The Lundbreck team has been invited for a return game at the reserve. Watch for the results, which will be interesting.

Mr. Fraser, accompanied by his son Douglas, Johnny Freebairn and Alfred Fortin, of Pincher Creek, and Jack Cowin and Ronald Morrison, of Cowley, are on a holiday camping trip in The Gap.

The constituency conference of the Women's Institute will be held in Lundbreck on August the 22nd.

Jack Bundy and Lloyd Morrison will attend the boys' camp at Macleod next week.

A softball game between Cowley and Spring Creek married men was played at the old Robert Burn ranch on Friday evening, with Cowley emerging victorious after a hard struggle, with a 14-13 score. The players on the teams were: Spring Creek—Harry Gunn, F. R. Baxter, Charles Fordyce, Bert Connolly, Jack Evans, Jimmie Gunn, M. Morin, Harry Rogers and Roy Bennett; Cowley—Father "Duke" Dick, "Al" Miller, Pat Patterson, F. A. Tustian, M. A. Murphy, H. C. Morrison, Arthur Freeman, C. J. Bundy and Lou Lemire. There was a crowd of about fifty spectators on hand. The women came laden with full baskets and a real picnic luncheon was served after the game. Everyone reported a very enjoyable time.

BELLEVUE HAPPENINGS

Mrs. C. Graham and two daughters, of Lacombe, are visiting in town, the guests of Mrs. Hutton.

Miss J. Cranston, left on Wednesday for a holiday at McBain's Lake. Mr. and Mrs. Wolney have returned home from Creston, where they have been visiting for the past week.

M. B. Crook, of Pincher Creek, is visiting her mother, Mrs. A. Bogusch, for a few days.

Mrs. Fred Padgett, Hilda and Lily; also Mrs. J. Hill and Peggy Dawson, are camping at Lee Lake.

Miss Olive Goodwin, R.N., of Vancouver, is on a three-week vacation with her parents here, Mr. and Mrs. Watts Goodwin.

Mrs. W. J. Cole arrived home from Calgary on Friday last.

Miss A. Bogusch is a patient at the local hospital, having been operated upon for appendicitis.

H. Barlass and son Jackie left on Sunday's train for Calgary to attend the Stampede.

Mr. and Mrs. J. Cousins, R. T. Johnson, Mr. and Mrs. C. W. Johnson, Mrs. O'Connell, Miss Ruby Cousins and Cecil Burney were Sunday visitors to Waterton Lakes.

Mr. and Mrs. Harry Meade are Calgary visitors this week.

A well known attorney was always lecturing his office boy, whether he needed it or not. One day he chanced to hear the following conversation between the boy and the one employed next door: "How much does your chief pay you?" asked the latter. "I get \$1000 a year—\$5 a week in cash and the rest in legal advice."

LINK-CLEMENTS

Mr. and Mrs. Harry Clements announce the marriage of their elder daughter, Marjorie Elsie, to Mr. David Arthur Link, third son of Mr. and Mrs. Fredrick Link, of Mountain Mill, on Sunday, June 4th, Rev. A. E. Larke, of Blairmore, officiating.

The bride for the past three years has been the very highly esteemed teacher of the Coalfield school and at the end of the school term Mr. and Mrs. Link spent a short honeymoon at Lethbridge and other points east.

The bride and groom returned on Sunday, and at 6 p.m., at the home of the bride's parents, the immediate relatives and a few intimate friends were guests at a wedding dinner and later in the evening a group of about thirty of the bride's schoolmates and friends assembled and were shortly afterward seated at a sumptuous repast. At the table with them was the officiating clergyman, Rev. Mr. Larke, of Blairmore. Rev. and Mrs. Whitmore and Mr. W. A. Watson, B.A., LL.B., of Edmonton and formerly of Macleod, were also present.

On the evening of Monday, July 3rd, a wedding dance was held in the Community hall, Beaver Mines, when about one hundred and fifty guests assembled in honor of the occasion. Friends were present from the surrounding districts and also from Pincher Creek, Chipman Creek, Coleman, Hillebert, Blairmore, Granum and Okotoks. Delightful music was provided by friends in two orchestras from The Pass.

At the supper hour, Mr. E. H. Holmes, on behalf of the Castle River Club, presented the happy couple with a kitchen cabinet and aluminum combination set, and the pupils of Coalfield school made a presentation of a pyrex and silver casserole as a token of their love and esteem. On behalf of the district, Mr. Holmes welcomed the bride and groom to their new home and expressed good wishes for their future happiness and success. A large number of individual wedding gifts were then presented to the bride and groom, expressing their pleasure in the reception of each.

The bride was born in Pincher Creek and is a graduate of the Pincher Creek high school and the Calgary normal school and a very successful teacher. The bridegroom is one of the popular young men of the neighborhood of Mountain Mill, where, near the picturesque scene of the Mountain Mill church, he is erecting their home. Many acquaintances join with friends in extending best wishes and congratulations.—Pincher Creek Echo.

LOOKING AT THE NEWS WITH COLONEL HUGH CLARK

That Judge Stubbs, directly being removed from the bench, should be offered nomination as a candidate for the house of commons in a constituency and province in which he is not a resident is indicative of the state of the public mind at the present time. The charges against him were laid by the attorney general of the Farmer-Labor government of Manitoba. The minister of justice at Ottawa granted an enquiry under Mr. Justice Ford, of Alberta, who received his appointment as a judge from the same government that appointed Stubbs. (We mention this merely to show that Mr. Stubbs was not the victim of partisan prosecution.) Mr. Justice Ford reported that Mr. Stubbs was unfit for the bench and intimated that his case was pathological. This lack of judicial temperament will not effect his power as a politician. In times like these the characteristics that made him formidable as a judge will make him formidable as a candidate.

Sangster went to the local chemist for advice. "Mon, I've an awful cold," he said. "Ha's ye a guid cure for it?"

"Yes," replied Gordon, "I have a sovereign cure." Sangster backed slowly towards the door. "Hoots awa' w' ye, mon!" he said. "Hoots awa' w' ye, mon!" fowerpence!"

MORTGAGE FURNITURE TO PLAY OLD CARNIVAL GAME

St. John's, Nfld.—"Oh father, dear father, come home with me now; this clock in the steeple strikes two." Newfoundlanders have found a new version of the old song about the drunken father; but it's mother whom the little daughter tries to bring home as "the clock in the steeple strikes two."

The scene of her plea is not, of course, the saloon, where father was wont to spend his evenings; it's the hall where they now congregate to watch the gallinging kernels of corn in the old carnival game of house-house.

And the game has taken such a grasp on the people, according to statements in the Legislature, that many have sold or mortgaged their furniture to gamble away the proceeds.

One member told of mothers who "often left their last cent at the house-house tables," and of others who late at night had to be dragged away from the gambling halls through the pleadings of their children.

He told the story of one woman for whom the game had taken on such a fascination that she charged a dozen eggs for 30 cents to continue playing.

House-house was introduced into Newfoundland only a few years ago, and according to a member of the legislature, "ever since the second from the United States introduced it here, it has taken a frightful hold on our people."

Women are not the only ones who have gone house-house. Men have been bitten by the bug also. A clergyman became suspicious after lending money to one of his parishioners. So he followed the man to the house-house.

Legislation making it an offence punishable by a fine of \$200 to engage in the game is now before the legislature. Some members are inclined, however, to allow the game to continue. "If they feel like gambling, they'll find some other way to lose their money," is the way they express it.

BIG BUSINESS

The manager was retiring and the staff decided to give him a radio set for a present. From each of the 8000 employees, the foreman collected 6d. each, making £200 in all. With this he bought at wholesale price, £200 worth of cigarettes. He took out the coupons and with them obtained the radio set, which the staff presented to the manager. Each of the 8000 men received, in exchange for his sixpence, a package of cigarettes, and the foreman himself got a useful discount on the order which he gave for the cigarettes.—Financial Times.

Make Haste Slowly

EVEN a genius must lay his bricks one at a time. And just so, health is built. You can't take a health-hurdle that lasts you through life. You must build health one meal at a time.

MOTHER'S BREAD

—Is the most important food at each of those meals. It gives the maximum of pure nourishment in that delicious form. Always fresh, crisp, tempting.

A little four-year-old lad appeared on the street in Blairmore on Monday and was immediately cuddled by the reds. He had used up all his mother's lipstick, till there wasn't a square inch of his face that wasn't red.

For the first time since England abandoned the gold standard in September, 1931, the pound sterling sold over its par of \$4.86 2/3 on the Montreal foreign exchange on July 6th. The pound soared to \$4.87 1/4, but later receded slightly.

"Television" Shopping

at
EATON'S

Won't be long now until television will cease to be a scientific marvel and become as commonplace in our homes as radio is today. Turn a dial, and we'll not only hear, events taking place thousands of miles away—we'll actually see them, too. Distance will mean less than ever.

But even now EATON'S Mail Order Catalogues are just as good as television. Open up your Catalogue and there before you are all the comforts of the home—rich fabrics—smart clothing—and all illustrated so clearly—all described so accurately that you might just as well be shopping for them personally at one of our great Western Retail Stores.

Add to this, the swift delivery service for which EATON'S is so famous, and EATON'S "satisfaction guarantee" policy, and it is more apparent than ever how closely EATON'S approximates television in service. Distance means so little to the Mail Order shopper!

The World's Grain Show.

From the beginning of time man's chief concern has been the obtaining of food to sustain life, and particularly that item of food which we have come to term the staff of life, bread. All down through the ages man has grown grains which, at first, by means of the crudest of methods he crushed and converted in a kind of flour. In the early years of the world's history wheat was recognized as the most acceptable of all grains for flour making purposes, the most highly prized of all grains. For thousands of years wheat has been a vitally important factor in the life of the human race; if there was a lack of it famine faced the people. Thus back in the days of Joseph the first storage elevators were built in order, in years of plenty, to provide for the lean years which always have come and always will come.

The growing, storage, transportation of wheat was a problem in those far off days, and it is one of the world's greatest problems today after the passage of thousands of years. It is engaging the attention of the statesmen of the world assembled at the World Economic Conference in London, England; it is the reason for the World's Grain Exhibition and Conference which opens at Regina on July 24. Rise and fall in the world supply and world prices of wheat is one of the great trade barometers of the world. Prices of other commodities fluctuate as the price of wheat fluctuates.

Therefore, the World's Grain Exhibition and Conference at Regina is an event of outstanding importance, and of particular importance to Canada as one of the great wheat producing and exporting nations. It is not a Regina exhibition, nor a Saskatchewan exhibition, nor a Canadian exhibition, but a world exhibition in every sense. But of all sections of the globe none is more vitally interested in its success than the prairie provinces of Canada, in the very heart of which it is being held, and held at what may be regarded as a crisis in the history of the world's oldest and most important industry.

Years of planning and organization effort have been devoted to making this World's Grain Exhibition and Conference a notable event. As a result, it will undoubtedly prove to be one of the greatest world exhibitions devoted to a single phase of human endeavor ever held. While wheat will occupy the foremost place because, as already stated, it is the foremost grain in the economic life of the world, every known variety of grain will be on exhibition and in competition. Many tons of exhibits from a score or more of nations and from all continents, including comprehensive and representative national exhibits as well as the competitive exhibits, will be attractively displayed in the largest grain exhibition building in the world, built specially for this great show. This building contains several acres of floor space, and actually miles of frontage of exhibits.

This building in itself alone will repay a visit to this world exhibition. The scheme of decoration is unique. The interior of the huge structure is completely decorated in grains and grasses and seeds of every kind, description and color. It will be a veritable blaze of light and color, with huge colored transparencies, the largest in the world, specially constructed in England, and interesting devices too numerous to enumerate.

Apart from the exhibition proper, the conferences to be held on every important subject related to grain growing, financing, storage and transportation, and participated in by the leading experts and agricultural officials of governments the world over, will be of such a high educational value that people as deeply interested as Western Canadian farmers are, cannot afford to miss them. Such subjects as Present World Situation and Trends, World's Wheat Surplus, Retarding and Controlling Production, Financing World's Wheat Surplus, World's Import General Requirements, World's Wheat Import Standards, Merchandising Methods in Grain Marketing, Can Improvements Be Expected? Greater Economy in Transportation and Storage of World Export Grains, Livestock—Its Place in Marketing Grain, and many others, will be discussed by men who are familiar with their subjects and who can speak authoritatively on them.

Morning sessions of this great world conference will be held in the Armories, located in the exhibition grounds, a beautiful building capable of seating 4,000 people comfortably. Afternoon sessions will take the form of joint meetings of various technical societies and groups, and will be held in Regina College and adjoining buildings.

As an exhibition city, the capital of Saskatchewan will be looking its best as the citizens are vying one with another, as well as working unselfishly through various civic bodies, to beautify and decorate the city for this memorable occasion.

And there will be ample accommodation for all who may come. In addition to a "tent city" of 2,000 tents, with all sanitary conveniences, created adjacent to the exhibition grounds, thousands of city homes are being thrown open to exhibition guests and visitors, every room has been inspected, cleaned, and listed, so that, people will know just what they can obtain and where and at what price.

Inasmuch as this World's Grain Exhibition is being held in conjunction with the annual Saskatchewan Provincial Fair, which has been greatly enlarged this year, and all within the same grounds, visitors will enjoy the advantages not only of the World Show but of the Provincial Fair as well, with all the varied attractions and amusements it will have to offer.

Western Canadians wishing to see a World's Exhibition have in the past always had to travel long distances and go to great expense to enjoy such a privilege. This year a World's Exhibition, and one in a class by itself will be in progress right in their midst. It is an opportunity that comes but once in a lifetime, and every person resident in the three prairie provinces who can possibly do so should take full advantage of it.

Jewry Reported History

Jewry repeated its history—sorrows, triumphs, strivings—in a gigantic Biblical spectacle, "The Romance of a People." The massive pageant, in Chicago, with a cast of 3,500, by and more than 100 others sent to hospital, sang, danced and acted, presented a theme of progress through the ages and projected the hopes of the Jew for the future—Palestine rebuilt. It was estimated 150,000 persons attended.

Severe Training Methods

Victims of the Japanese army's customarily severe training methods, men of extreme hot weather, were sent to hospital, and more than 100 others sent to hospital, sang, danced and acted, presented a theme of progress through the ages and projected the hopes of the Jew for the future—Palestine rebuilt. It was estimated 150,000 persons attended.

Weakening Diarrhoea Dangerous Dysentery

Diarrhoea and Dysentery do not need to run for any length of time until the whole system is weakened and debilitated. Few other diseases so quickly undermine the strength and bring about a condition of prostration and mental collapse.

Dr. Fowler's Extract of Wild Strawberry is not only prompt and effective in checking the looseness of the bowels, but at the same time it strengthens, stimulates and braces up the system.

Never be without a bottle of Dr. Fowler's. Always be prepared in case of emergency.

Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Wheat in Two Countries

United States May Have To Import From Canada This Year

If the crop exports are correct in their predictions the United States will have to import wheat before the 1934 crop is harvested—and Canada has wheat for sale.

United States Government reports estimate total production for the present year at 603,000,000 bushels. Normal consumption is 620,000,000 bushels, and usually there are heavy exports, shipments to territories and insular possessions. Winter wheat is down 250,000,000 bushels from the average and spring wheat is "below normal."

At the same time, Canadian Government officials reported that in Saskatchewan and Manitoba crop prospects were "notably better" than a year ago, and in Alberta only very slightly below the corresponding date of '33.

On the basis, then, of present expectation, the United States will be off the export market for the next year, and in addition will have to import a considerable quantity of wheat. This situation should react to the distinct advantage of Canada, which goes into the new crop year with a heavy carry-over and the best outlook in a decade for a heavy and well-distributed production. Dollar wheat may not be so far away as it has seemed.—Ottawa Journal.

Concord Farmers Like Crows

Believe He Is Friend and Pays For His Keep

Uncle Sam's experts and states of Massachusetts and Maryland may be again "em," but New Hampshire is a friend of the crow. The farmers of the Old Granite state will have none of the new-fangled coal tar solutions for soaking seed corn and peas just to give Jim Crow the collywobbers.

They believe the crow is a friend of the farmer. He may steal a few kernels of planted corn, but most of the time when he is scratching in a field, he is probably digging for bugs, farmers here claim.

The damage they do is exaggerated, at least Commissioner of Agriculture Andrew L. Folker believes it is.

"Generally speaking, New Hampshire farmers aren't upset much over crows," he said. "We'll hear 'em cawing for many a springtime yet, and when last year's overalls are beyond all patching, we'll stuff them with straw, put a sugar bag head on top and have us a scarecrow for old time's sake."

"They pay for their keep by the insects they eat."

Influence Of Women

Thinks Conditions Would Be Much Better If World Was Guided By Women

"There is one thing of which I am absolutely positive," said C. F. Howard, Indianapolis, in addressing the annual banquet of the Ontario and Quebec Conference of Typographical unions, at Toronto. "If women controlled the unions and politics of the world we wouldn't have millions unemployed, nor would we have hundreds of thousands starving while we have plenty to eat."

The influence of women, he said, "has kept men from being worse animals than they are."

President Franklin Roosevelt, he said, was the greatest dictator the world had ever seen. "You may take Stalin or Russia, Hitler or Germany, or Mussolini of Italy—none of these has the power of the president of the United States."

T.B. Infection

New Substance Reported Being Made To Determine Presence Of Tuberculosis

Research workers of the National Tuberculosis Association are perfecting and will shortly give the world a new substance to determine accurately the presence of tuberculosis infection in man, the Toronto Telegram said.

This substance, it is understood, will contain no foreign elements other than the one the purpose of which is to indicate diagnostically the presence of infection," the newspaper said. "It has as yet been given no name and is not ready for commercial distribution."

Clock Has No Dial

A church clock at Lullington, Staffordshire, England, although it has neither dial nor hands, is said to have kept good time for nearly 40 years. It strikes the hours only. Rudely fashioned between oak beams, the mechanism is actuated by two heavy stones attached to ropes which run over pulleys in the belfry 30 feet above.

For Five Complete Sets of Poker Hands

You can obtain a pair of first quality Ladies' pure thread Silk Stockings, 45 gauge. Combined with excellent wearing qualities, these Stockings have the dull, sheer appearance which is so desirable, and they are obtainable in the latest shades. Sizes 8 1/2, 9, 9 1/2, 10.

There is genuine economy in rolling your own with Turret fine cut, as you can make more than 50 cigarettes from a 20c. package.

It pays to "Roll Your Own" with **TURRET FINE CUT CIGARETTE TOBACCO** SAVE THE POKER HANDS

Imperial Tobacco Company of Canada, Limited

New Clock Very Accurate

Master Timepiece Will Not Vary Second In Five Years

A master clock that will not gain or lose one second in five or six years, was described before the 25th meeting of the Physics Club of New York by O. H. Caldwell, former Federal Radio Commissioner. The clock was completed recently in Washington by engineers of the United States Government and will be installed at the Naval Observatory there to regulate all official clocks and correlate over government radio stations. In the chamber in which that air vibrations react on it to produce what is called "acoustic feedback." The bar of quartz is delicately suspended on slender threads. An accuracy of one part in 100,000,000 is claimed.

"Clocks operated by other means are not nearly of such accuracy," said Mr. Caldwell. "Even the best pendulum timepieces have a daily error. They run fast and slow, in accordance with the attraction of the moon's mass. But the electronic clock, employing crystal, goes serenely on beating time, undisturbed by the effect of moon on earth. A clock employing such a principle is the most accurate known."

Great Boon To Outfitters

Nazi Brown Is Color Of Hour In Germany

Brown is all the rage today in Germany for everything from suits to shoes.

The triumph of the Nazi "brown shirts" has given men's outfitters an undreamed-of opportunity. Everywhere they are displaying cloth and leather goods of the color of the hour, coupled with printed exhortations to all good Germans to fall in line.

"Browns are trumps!" advertises one enterprising shoe store on Berlin's busy Friedrichstrasse. His window display does not contain even one pair of black footwear.

May Be Fall Session

The parliament of Canada, which ordinarily meets early in each year, may be called together this fall if there are developments at the World's Economic Conference which demand its sanction. Last fall parliament met to put into effect the conclusion of the Imperial Economic Conference.

Prince Opens Bridges

The Prince of Wales opened three new bridges over the Thames, driving over each one at Chiswick, Twickenham and Hampton Court, with the tea ceremonies wound up, and a gala on the Hampton Court Bridge and Hampton Court Palace at which nearly 1,000 guests were present.

Forefight Of British Soldier

Made Possible Rapid Mobilization Of Army For Great War

A hundred years ago was born near Dublin, Ireland, Garnet Wolseley, a British soldier, whose chief title to fame was that he reorganized the army, modernized its system of training, prepared it for the emergency of war and made rapid mobilization possible. But for his persistence there would have been no expeditionary force—incomplete for efficiency, it has been called—to rush to France in August, 1914. The small but well-trained British Army rendered a great service by its fighting retreat from Mons; and at the first battle of the Marne, the report of its advance into the gap between the First and Second German Armies confused the tactics of the enemy, which believed that the British ranks had been broken and could not be reformed.—New York Times.

Prepare For Immigration

Look For Resumption Of Immigration From United Kingdom

Satisfied "the provincial" governments of Canada will shortly desire the resumption of immigration from the United Kingdom to Canada, Brigadier General M. L. Hornby, of Lethbridge, Alberta, announced his intention of sailing to England to lay proposed immigration legislation before United Kingdom authorities.

"I wish to make it quite clear that I am not advocating increased immigration before the provincial governments have come to consider this advisable," said General Hornby in an interview in Montreal. "What I am advocating at the present time is that we should formulate a definite plan of action without any loss of time. For instance, there should be the acquisition of required land and the preparation of suitable farm homes."

Evolution Of Electric Lamps

New Type Is Very Different From Old Style Tungsten

Edison's tungsten electric lamp was one of the marvels of the 1893 Chicago World's Fair. A new type of electric lamp, the sodium-vapor bulb, promises to be the most significant scientific device on exhibit at the Century of Progress Fair, 40 years later. A Dutch sodium-vapor bulb exhibited at a New York scientific meeting the other night has 16 times the visibility of ordinary tungsten lamps and provides from three to four times as much light for the same amount of electricity. The new lamp provides an unusual yellow light, said to be helpful to vision.

Manitoba Sugar Beets

In 1931 an experimental crop of sugar beets on a small acreage in the Emerson district of the Province of Manitoba gave such encouraging results that over 200 acres were planted in 1932. The total crop of 1,687 tons was shipped to Grand Forks, North Dakota. This year over 300 acres are sown to beets and a sugar factory may soon be built in the district.

Rations For Fifteen Years

The San Quentin Bulletin turned to statistics long enough to report one prisoner had kept track of all the food he had eaten during 15 years as an inmate of a California prison. His record shows 2,157 hamburger buns, 32,850 slices of bread, 4,975 cups of tea, 9,500 cups of coffee and 270,000 beans, the latter item averaging 50 beans a day.

Planning Unusual Flight

Cobham May Attempt Great Refueling Trip To Australia

Famous Sir Alan Cobham and Squadron Leader Helmore are proceeding methodically with the flying trials of a new single-engine monoplane in which later this year they may attempt to fly 10,000 miles non-stop. Probably to Australia. They plan to have the plane refueled in flight from "haunts" aircraft which will ascend to meet it from five or six aerodromes along the way. Thus the need to carry an enormous load of fuel at the start is avoided.

For ordinary commercial use the airplane is intended to carry pilot, four or five passengers and luggage. Equipped for the proposed long distance flight it will have seats for the two pilots only, the remainder of the disposable load being represented by approximately 280 gallons of fuel, sufficient for about 16 hours' cruising at 130 to 140 miles per hour. Power is derived from a single 245 horsepower Armstrong Siddeley "Lynx" air-cooled engine. A Townsend ring-wing around the engine is responsible for a gain of 18 miles per hour over the speed attained with an uncovered engine.

If Cobham and Helmore make for Australia and have good luck, they should reach the Australian mainland from England in less than four days.

Increase In Exports

Shipments To United Kingdom Show Heavy Increase During Past Year

An increase of nearly \$30,000,000 in the exports of Canada to the United Kingdom for the 12-month period ending May 31, 1933, is shown in the leading commodities as compared with the same period of 1932, according to a statement issued by Hon. H. H. Stevens, Minister of Trade and Commerce, recently. For the year ended a month ago total exports of leading commodities to Great Britain had a value of \$108,075,732, while for the corresponding period a year ago the value of these was \$78,961,544.

The largest increase in value was wheat, which, at \$65,744,808 this year, was more than \$25,000,000 greater than last year.

The value of bacon exports increased from \$1,613,020 to \$2,855,021; of barley from \$1,407,099 to \$2,810,242; of hams from \$1,574,614 to \$2,272,862.

An increase of nearly \$1,000,000 was shown in timber exports.

New Kind Of Food

Sweet Young June Bride: "I would like a mess of slumps, Mr. Coleman." Grocer: "Slumps? I don't quite understand what you mean."

Bride: "Why, I hear my husband say there were five slumps in the market and I wanted to surprise him by having some for dinner."

Motor roads in the world now total 6,665,800 miles.

IN UP-TO-DATE STABLES

—Old Reliable Minard's

When horses come in to stable with wire cuts or saddle boils, or even have calked under, the thing to do is get the Minard's. I like your Minard's Liniment. Like to have it in the house. I have found your Minard's Liniment especially good for sore shins, sore hocks, sore heels, etc. A family doctor prepared Minard's Liniment over 40 years ago. Still invaluable in every stable and every home.

W. N. U. 2003

WORLD PARLEY IS SAVED FROM UTTER COLLAPSE

London, Eng.—The world economic conference, on the verge of collapse, was saved from complete failure by united action of Prime Minister R. B. Bennett of Canada and President Franklin Roosevelt of the United States.

Decision of the conference steering committee will permit the meeting to continue on a restricted agenda, from which all monetary and tariff questions were removed at insistence of France and the European gold-bloc.

A sudden switch in the American attitude, dictated in a telephone conversation between the president and Secretary of State Cordell Hull, placed the United States firmly behind immediate continuation and received immediate, vigorous support from Mr. Bennett.

The energy of Mr. Bennett's appeal in turn won over Neville Chamberlain, British's Chancellor of the Exchequer, who had been only lukewarm toward the idea of continuing under present circumstances. When the vote was taken France alone of the 12 nations represented on the steering committee held out for adjournment.

The gold group had regarded Mr. Chamberlain as leaning to their view, but the force of Mr. Bennett's argument, representing as it did the wishes of all the British dominions, swung him quickly to their side.

The stand of Georges Bonnet, French Finance Minister and leader of the gold-bloc, was weakened in the final stages of debate by recalcitrance of other group members. In the end even Premier Henriek Colli of Holland, strong supporter of gold policy, voted in favor of continuing.

Future outlook of the conference however, was limited by French and gold-bloc insistence they will not participate in any discussion of monetary questions.

The steering committee recessed at lunch, after three and a half hours of heated discussion without reaching any decision upon the question of adjournment. Reassembling after lunch, the delegates decided to continue.

Leaving the meeting, Prime Minister R. B. Bennett of Canada expressed himself as "pleased with the proceedings of the bureau up to this point."

It was well known Mr. Bennett was leading delegates of all the dominions in a strenuous fight to save the conference from complete collapse.

He was understood to have strongly stressed during the heated morning session that a recess of the conference at this time would be a step in the wrong direction.

Prime Minister Bennett is the only delegate from the dominions who is a member of the conference steering committee, limited to 12 of the leaders. But in opposing adjournment of the conference he was presenting a view in which they all concur.

When the steering committee disbanded the point at issue was the program of conference work, as suggested by Cordell Hull of the American delegation. The French were opposing the American program. They are willing to leave the conference in being only for discussion on marketing and production of commodities.

Goodwill Air Tour

Twenty-Five Planes From Winnipeg To Tour Western Provinces

Winnipeg, Man.—Under the leadership of R. M. "Pat" Reid, well-known wartime aviator, the third annual Manitoba goodwill air tour will cover the three prairie provinces this year, it was announced Thursday.

Between 20 and 25 planes will sweep westward as far as Edmonton, taking off from Winnipeg Aug. 5 and returning Aug. 20. Aim of the air tour is to demonstrate speed and safety of aerial travel and progress Canada has made in aviation.

Historical Page at

Prince Albert, Sask.—Four hundred performers will take part in the historical pageant being prepared for the golden jubilee Prince Albert annual exhibition July 31 to August 3 inclusive. One hundred and eight small girls, 64 young men and 212 young women will be required for the production being prepared for presentation before the grand stand.

W. N. T. 1922

Plan New Processing Tax

U.S. Farm Officials Expect Large Returns From Levy On Hogs

Washington.—United States farm administrators have drafted tentative plans calling for a processing tax on hogs by Oct. 1 to provide up to \$150,000,000 to finance application of the Farm Act to corn and swine.

The plans will not take final form until after a meeting of corn and hog producers and their representatives which secretary of agriculture Henry Wallace has suggested be called in mid-July to obtain a cross-section of sentiment regarding the relation of the act to the two related products of the corn belt that have suffered from low prices in recent years.

If the levy is approved in connection with a corn-hog program to be worked out by August 1, it would be the fourth processing tax to go into effect before winter sets in. The 3-cent a bushel wheat tax became effective at midnight, July 8; a maximum processing tax on cotton, probably four cents, is to become effective on August 1 if the acreage reduction campaign now under way in the cotton belt succeeds, and a processing tax of about six cents a pound is to be levied on cigar leaf tobacco by October 1.

Death Toll Was Heavy

Accidents Take 144 Lives In U.S. On Independence Day

New York.—Lives of 144 men, women and children paid for the celebration in United States of July 4, 157th anniversary of the republic. Automobiles accounted for 62 deaths; 46 persons drowned; six died as a result of fireworks; and 30 were killed from other accidental causes.

Thousands of other celebrants suffered injuries, many were critically hurt and property damage was heavy. Shootings, fights and aeroplane accidents contributed to the death toll.

In Chicago a parachute jumper fell to his death before 100,000 horrified spectators at the world's fair.

Peculiarly, Chicago, the play centre of the nation as the result of the Century of Progress, escaped with but three automobile fatalities despite traffic-closed streets that poured massive crowds into the world's fair ground.

Electrify Grain Elevators

Big Program Of Work Is Started In Alberta

Calgary, Alberta.—An electrification program for 175 Alberta grain elevators, to cost \$125,000, has been started, according to the Calgary "Albertan." All switching and control equipment will be manufactured in Canada. Eastern manufacturers will turn out about 400 electrical motors, the paper adds, the co-operation of elevator companies, equipment manufacturers, contractors and officials of the Calgary Power Company, power supply source, making the program possible. The work will bring jobs to men at present unemployed, the paper concludes.

Demand For Canadian Wheat

World Grain Show Delegate Sees Good Market In Britain

Winnipeg, Man.—"I look for a much broader demand for Canadian wheat in the United Kingdom market in the near future," said William Smith, Edinburgh, Scotland, manager of the Scottish Co-operative Wholesale Society, who arrived in Winnipeg. Accompanied by Neil Beaton, newly elected president of the society, Mr. Smith is en route to the World Grain Show at Regina this month.

To Repair Vessels

Kingston, Ont.—One hundred men will be employed for the next three weeks or a month repairing the Canada Steamship Lines grain carrier "Brentwood" at Kingston. Tuesday morning more than a score started work on the vessel, damaged when it ran aground a few weeks ago en route here with a cargo of grain. It was announced the job would cost between \$70,000 and \$80,000, the highest repair job in the district for some years.

Chinese Feel Insulted

Chicago.—The Chinese Consolidated Benevolent Association protested to the Century of Progress Exposition officials against the inclusion of the southern Manchurian exhibit in the Japanese section at the exposition. A letter signed by Chew Low, president of the association, called the exhibit "a direct insult" by the Japanese.

Would Become Citizen

Veregin To Apply For Naturalization Papers

Kamsack, Sask.—Making his first appearance in public since he was released by order of Mr. Justice R. A. Robson at Winnipeg from custody of immigration officials who had twice attempted to deport him as an alien, Peter Veregin, Doukhobor leader, told 2,000 of his followers from all parts of Saskatchewan and Manitoba, he had completed his five years' residence in Canada and he intends to apply for naturalization papers.

In the course of an address which dealt largely with religious matters, the spiritual as well as temporal head of the Christian Community of Universal Brotherhood, appealed to his audience to donate money to help suffering members of the community in Russia.

Independent Doukhobors at the meeting expressed the opinion the first duty of the community lay towards those of Canada's 16,000 Doukhobors who are suffering.

To Brave Niagara

Plans To Go Over The Falls In A Barrel

Niagara Falls, Ont.—Planning to venture over the foaming cataracts of Niagara Falls, Alfred Rioux, of this city, is scheduled this month to make the daring plunge, encased in an iron torpedo-shaped barrel.

The barrel Rioux intends to use, is of steel construction with a port-hole looking from the inside.

Rioux intends to plunge over the Horseshoe Falls and through the lower rapids to Queenston.

Case In Completed

Ottawa, Ont.—Hon. Lyman P. Duff, chief justice of Canada, and Justice Willis Van Derwerker of the United States supreme court, sitting as special commissioners, have completed their investigation into the "Im Alone" sinking, and will render their report to the governments of the United States and Canada.

GRAIN TRADERS PONDER FUTURE MARKET TREND

Winnipeg, Man.—In the face of dwindling export business in Canadian wheat and the largest surplus Canada has ever had at this time of year, recent spectacular rises in wheat prices have caused more contemplative traders to pause and consider the picture the grain market is likely to present in the near future.

United Kingdom importers showed less and less disposition to increase their stocks of wheat by buying Canadian grain. Traders are inclined to look to the importer for the key to what levels wheat prices will ultimately reach and hold.

Statistics on export trade would indicate the buyer in Europe has followed a hand-to-mouth policy for some time. Wheat stocks in the United Kingdom ports which exceeded 30,000,000 bushels in November, 1931, stand today at slightly more than 12,000,000 bushels, while mill stocks are also reported extremely low.

RUSSIAN DELEGATE AND HIS ENGLISH WIFE

Here we see V. Litvinoff, leader of the Soviet Union delegation to the World Economic Conference, leaving the Geological Museum, where the conference is in session, with his wife, who is an Englishwoman.

HEADS ROTARY

John Nelson, native of Paisley, Ontario, and at one time editor or publisher of several leading Canadian newspapers, who was unanimously elected president of Rotary International at the meeting in Boston.

Whales From Churchill

To Be Placed On Exhibition At Chicago Fair

Saskatoon, Sask.—Saskatoon imported its first fish from Churchill—namely saltwater herring for local dinner tables. And the herring will be eclipsed by three white whales, destined not for dinner tables but for the world's fair at Chicago.

Procured for the Chicago show, the whales were caught off Churchill on June 29 and it is expected that they will make their first public appearance here during the next few days. S. H. Stebbings, Saskatoon, is endeavoring to make arrangements for showing them in a local cold storage plant.

The snowy whales are in ice for the train journey south.

Mr. Stebbings also expects to complete arrangements for a showing this summer on the class "A" western fair circuit.

May Take Vacation

Health Of Sir John Simon Is Causing Anxiety

London, Eng.—The health of Sir John Simon, British Secretary for Foreign Affairs, is causing increasing anxiety to his friends and it is understood he may take a long vacation, probably at sea.

A peerage for him has been mentioned if the low blood pressure, from which he is suffering, makes his continuation in office inadvisable.

He was reported to have sold his country estate, Fritwell Manor, in Oxford.

Princess Royal Must Rest

Only Daughter Of King George Cancels All Engagements

London, Eng.—It was announced today that the princess royal has cancelled all her engagements.

"There is no reason other than that her royal highness has to rest," it was stated at her London home.

The Countess of Harewood, the princess royal, is Mary, the only daughter of King George and Queen Mary of England.

Receive Warm Welcome

Thornton and MacDonald Reach Home After Release From Soviet Prison

London, Eng.—Cheers, flowers and kisses awaited L. C. Thornton and William MacDonald as they arrived here, released by the Soviet authorities from prison where they were serving sentences imposed on conviction of bribery and espionage.

Thousands thronged the station platform to welcome back the men whose freedom was obtained by the British embargo on Russian trade. Thornton's little daughter somehow was passed through the crowd to her daddy's car almost before the train stopped and was immediately in her father's embrace.

Thornton declared he and MacDonald were full of gratitude to the British government and the British people for so staunchly taking action which resulted in their release.

He also expressed gratitude to Sir Edmund Osney, former British ambassador to Moscow, and gratification at the confidence their own company had shown in the accused.

Utters Warning

Says U.S. May Demand West Indies

London, Eng.—Warning the British West Indies might some day be demanded by the United States in payment of the British war debt, and declaration public opinion should be fully prepared, was uttered Thursday by Archbishop Jullion of St. Kitts, preaching at the annual West Indies service at St. Andrews Church, Queen Victoria Street.

A certain section of politicians in America were already making such a demand, the archbishop said.

It was unthinkable, said Archbishop Jullion, that England would ever agree to a demand from the United States for the British West Indies. Nevertheless public opinion should be prepared.

Free State Elections

Dublin Municipal Vote Indicates Swing Away From De Valera

Dublin, Irish Free State.—Supporters of President Eamon De Valera's Republican Government in the Irish Free State are worried by failure of their forces to gain victory in the Dublin municipal elections.

Results of the election showed the city preponderantly in favor of the Nationalists and Independents who support former President William T. Cosgrave. Besides returning Lord Mayor Alfred Byrne, an Independent ally of Mr. Cosgrave, the electors gave seats to 22 Nationalist and Independent candidates and only 13 to adherents of the De Valera regime.

The Nationalists hailed the result as indicative of a swing away from the Republican Government.

Ontario Dentists Robbed

Niagara Falls, Ont.—Five dental offices of Niagara and Niagara Falls were broken into and ransacked for gold leaf, gold scrap and false teeth by thieves. At Hamilton loss to three dentists through theft amounted to close to \$400.

CENTRIST PARTY IN GERMANY IS DISSOLVED

Berlin, Germany.—Former Chancellor Heinrich Brüning announced the dissolution of the Catholic Centrist party, last non-Nazi political party in Germany.

A laconic statement issued by him said: "The Centrist party has dissolved itself in agreement with the chancellor (Hitler)."

The extinction of the Centrists marks the end of the parliamentary party system in Germany as well as the end of political Catholicism. The Bavarian People's party, allies of the Centrists, quit the political scene. Between them these parties held 88 of 584 seats in the pre-Hitler parliament.

The Volkspartei, or People's party of the late Chancellor Gustav Stresemann, which had only two Reichstag seats but was formerly much more powerful, also announced its dissolution.

These parties followed the lead of the Nationalists, who had combined with the Nazis in establishing the new regime last January, in voluntarily disbanding. The Nazis themselves had previously outlawed the communists, socialists and statepartei.

BUYING POWER OF WHEAT IS UP FIFTY PER CENT.

Winnipeg, Man.—Purchasing power of wheat in western Canada over "things that farmers buy" today stands at 70 per cent. of the 1913-14 price, compared with 40 per cent. in April and only 22 per cent. on December 16, last year, when wheat fell to 35 cents per bushel in Winnipeg market and touched the low point in the history of the grain trade.

These figures are shown in the farmers' index chart compiled by the Seale Grain Company Limited. Index figures on livestock show cattle with purchasing power of 50 per cent. of the pre-war price; hogs 53 per cent.; and lambs 73 per cent.

Price of wheat used in the compilation is that paid to farmers at elevators in western Canada for No. 1 Northern on the basis of 25 cents per 100 pounds freight, which is 15 cents a bushel.

In the things farmers buy are listed 146 items essential to an average grower in the west to carry on production.

There are 16 items of groceries, 37 items of clothing, 29 items of household equipment, 51 items of farm equipment, 11 items of farm machinery, and two items of municipal taxes in the list.

The compilation notes that the index of things farmers buy is still 127 per cent. of the 1913-14 level.

Tax Compacts

Duty Boosted On Imported Powder Puffs

Ottawa, Ont.—Milady's aids to beauty are going to cost her more. Recently the Minister of National Revenue boosted the excise tax on imported compacts and powder puffs from 3 to 10 per cent. More than that, this assault on the diminutive vanity case is retroactive to March 22, 1933, so that Miss Canada has not already paid her 10 per cent. on the foreign compact, the importer will be required to do so.

The increased tax applies to compacts, compact cases, or vanity cases, whether or not they contain any toilet preparation, and on powder puffs and powder pads.

Woman Will Supervise Refueling Of Monoplane

Minneapolis Girl To Aid Post At Two Siberian Ports

New York.—Miss Fay Gillis, 23, of Minneapolis, will direct the refueling of Wiley Post's monoplane, "Winnie Mae of Oklahoma," at two Siberian points on his projected world solo flight.

See Trenchard, Post's representative, said Miss Gillis had left Moscow on June 25 for Novo-Sibirsk, where the aviator plans to stop after leaving Berlin. While Post eats and takes a short nap, she will supervise replenishment of the gas tanks and any adjustments the plane needs.

Trade With Russia

British Government To Take Into Account Anglo-Canadian Agreement

London, Eng.—A questioner in the House of Commons was assured by a government spokesman that in trade talks between Britain and Russia, the British government will take into full account—Article 21 of the Anglo-Canadian trade agreement.

This provides that where the imperial preferences are endangered by the importation of products sold at an unfair price because of state subsidies or state production, such commodities will be prohibited entry.

R.C.M.P. Promotions

Ottawa, Ont.—Two promotions to the rank of acting superintendent were announced from headquarters of the Royal Canadian Mounted Police here. Inspector V. A. M. Kemp, adjutant of the force here, and Inspector Herbert Darling, assistant to the director of criminal investigation in Ottawa, receive these appointments as from July 1.

King Opening Big Dock

Southampton, Eng.—The "greatest dry dock in the world, built at Southampton for the Southern railway at a cost of \$10,000,000, will be opened by the King July 26. During the construction of the dock 2,000,000 tons of earth and mud were excavated from the site and 750,000 tons of concrete were used.

Milne's Meat Market

Jas. Milne, Prop. Phone 46 Blairmore, Alberta

The Lethbridge exhibition opens on Tuesday next.

Joe Cardinal is in town today from The Gap, having ridden in over the Summit.

A. R. Wyman, of Sentinel, was a guest recently of Mr. and Mrs. Albert Swinerton at Macleod.

The Castle River Club sports and stampee will be held at the South Fork bridge, Burnis-Beaver Mines road, on Wednesday next.

A heading in the Lethbridge Herald, reading "Airport work at Coleman may continue to freeze up," was no doubt meant to read "will freeze up."

Caught in the act of stealing gasoline from the car of Dr. R. K. Lillie, two transients were brought before Magistrate Gresham on Tuesday, charged with theft. One of the pair was found guilty and was sentenced to serve thirty days at Lethbridge, while his partner was released. The gas was returned to Doc.

The infant daughter of Mr. and Mrs. Marcolin passed away at Bellevue last week.

The reason we can't save money is because our neighbors are always doing something we can't afford.

Mrs. Bernard, wife of Constable Bernard, R.C.M.P., is up from Lethbridge visiting her parents at Coleman, Mr. and Mrs. Fraser.

Schmeling would have been licked sooner, had it not been for the fact that Baer had been kept on ice for months previous to keep him from Schmeling.

George Sangster, a bachelor, says that the difference between an animated doll and a modern girl is that the latter "doesn't holler 'mamma!'" when squeezed.

Announcement is made of the opening of an airport at Creston, B.C., but not a word has been said of the conduct at Blairmore's "hot-air" gort since the incarceration of Harvey Murphy.

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties, leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Mrs. John Peressini is reported quite seriously ill.

Miss Gladys Miller, of Banff, is a holiday guest of Miss Chardon here for a few days.

A woman doesn't always get the last word. Sometimes she talks to another woman.

In most towns in Canada, the Dominion Day festivities were set agoing by the mayor.

Rev. J. Raven, former R.C.M.P. inspector, has been appointed Anglican rector for Fernie, Michel and Corbin.

The members of the Blairmore Town Council will have an opportunity today to learn how to hear appeals against assessments.

A meeting of the Blairmore Amateur Athletic Association will be held at the Greenhill hotel tomorrow evening at 8 o'clock, when a good attendance is anticipated.

In the boxing exhibitions at Coleman on Saturday night last, Jimmy Burrill, of Blairmore, knocked out Jimmy Stanmore, of Lethbridge, in the early part of the first round.

The biggest fish story of the season is brought back from Margaree, Nova Scotia, by C. J. Tompkins, picturing his ninety-two-year-old dad with a salmon that weighed only 119 pounds less than he did.

Mr. and Mrs. A. Dewar, of Coleman, announce the marriage of their daughter Evelyn to Mr. Robert Donaldson, son of Mrs. Mary Donaldson, of Lethbridge, at Coleman on Saturday last, Rev. Roy Taylor officiating.

Mar Poy, one of the most highly respected of our citizens, receives word recently of the death of a son, Hong King Poy, at Hoy Sun, China, which occurred on January the 28th. Hong King was in his twentieth year and leaves a young wife.

Mr. and Mrs. J. J. Murray, with Margaret and Beth, left Frank by Monday afternoon's train for points in Prince Edward Island and New Brunswick, where they will spend several weeks' vacation. Mr. Totten is relieving Mr. Murray at the Frank station.

The Enterprise has the equipment to handle all classes of job printing, and can guarantee that your money will stay in The Crows' Nest Pass. If you wish to hurt The Pass, give your order to representatives of foreign establishments. Furthermore, The Enterprise can boast of not being influenced by the Reds.

The Len Davis' dance orchestra, of Lethbridge, will supply music for a mid-week dance at Crows' Nest Lake pavilion on Wednesday night next. We are informed by the manager, Mr. Morency, that he has received word that the recent regulation closing dances at 1 a.m. has been rescinded, so the dance will continue beyond that hour.

Miss Doreen Jackson, eldest daughter of Mr. and Mrs. Cyril Jackson, of Pincher Creek, and Mr. T. Beynon, of Hillcrest, have passed the examination in pianoforte playing (performers' standard) for the Diploma License of the Associated Board, Royal Schools of Music. Both are pupils of Mr. Mellor-Langdale, A.R.C.A., L.R.A.M., L.A.B.

Charles Harrison was admitted to the local hospital on Sunday last, where a very critical appendicitis operation was performed. As we go to press, Mr. Harrison's condition shows no sign of improvement, and very little hope for his recovery is entertained. His sister, Mrs. F. Gilroy, is expected back from Vancouver tonight, while his half-brother, Joseph Handley, has also been called in from Creston.

Macleod's tax rate for the year 1933 has been set at 35 mills.

W. Drake and family, of Frank, hope to enjoy a vacation by motor to the Pacific coast.

Citizens of Germany who visit Austria must now pay \$270 for a visa to their government.

Frank Zilli and family, and Louis Zilli, arrived in town on Sunday by motor from Drumheller.

The Coleman Cafe, for nine years operated by Long Kam, has been taken over by Ben Chow, formerly of Natal, B.C.

The death occurred at Cranbrook on Sunday of T. R. Flett, retired superintendent of the Cranbrook division of the Canadian Pacific Railway.

Twenty-five cents is offered by a local philanthropist to any naturalized British subject who will have gall enough to go into Russia, and preach British doctrines.

D. B. Emeno, former Lethbridge bank manager, was shot to death by a dismissed bank employee at Mexico City on Tuesday evening. C. H. Whalley, alleged murderer, has been arrested.

A. Z. Jessup, editor of the Nanton News, and his son Clyde, editor of the Macleod Gazette, returned home through Blairmore last evening from a vacation trip as far west as Seattle, calling on The Enterprise enroute.

Harry Moore and family have moved into the house lately occupied by W. W. Scott and family, at the corner of State Street and Tenth Avenue, recently purchased by Mr. Moore. Mr. Scott has moved his family to Calgary to reside.

The new Oddfellows' hall at Natal will be officially opened and dedicated tomorrow night, with W. T. Choate, British Columbia grand master, in attendance. The installation of officers for the term will form part of the evening's programme.

Sam Sherbo, Italian cyclist, who passed through Blairmore last week on the way from Sirdar, B.C., to Calgary, met with an accident immediately on his arrival in the city, when he collided with an auto. Sherbo was not hurt, but his bicycle was somewhat damaged.

Collections for water and light are coming in to the town's treasury fairly well, despite the existing "hard times," largely due to the wise action of the council in offering ten per cent discount for prompt payment. The ratepayers and residents of the town surely appreciate this action of their city fathers.

A man who recently returned to Southern Alberta from Russia, and who before leaving that country was mulcted of every spare cent he possessed, intends to address a public meeting shortly, taking for his subject: "Russia as I felt it." Apparently too many have been telling simply of what they had seen.

DR. A. E. SHORE, of Drs. Gunn, Hackney & Shore, Calgary, will be at the office of Dr. Stewart, Blairmore, on Saturday, July 22nd, after 2:00 p.m. Any one wishing to consult him with regard to Eye, Ear, Nose or Throat conditions, or to be fitted with glasses, please make appointments with Dr. Stewart.

SCHOOL NOTICE

Children who will have reached a full age of six (6) years previous to Dec. 31st, 1933, may be registered for the coming School Year, commencing on August 28th. Registrations to be made at the Town Office before July 25th. Children not admitted at this time will not be permitted to enter school once the year has started. Proof of age will be necessary when registering. BOARD OF TRUSTEES, July 13-29 S.D. No. 628.
